

Projected Income Calculator

The Projected Income Calculator allows you to quickly calculate extra charges for a booking.

To use the calculator, click on the icon and the Income calculator will open.

Use the "+" and "-" buttons to add charges to the booking. The charge will be added to the total rent and tax of the booking.

The screenshot shows a web application interface with a 'Booking Information' section on the left and an 'Income Calculator' modal window in the center. The 'Booking Information' section includes fields for Source (Web S), PO Number, Travel Agent, Guest Comments, Booking Comments, CRS Confirmation, Projected Income (\$ 84), Time of arrival (15:00), and Time of departure (11:00). The 'Income Calculator' modal window has a title bar with a close button and a search input field containing '84'. It contains a table of charges with columns for the charge name, current amount, and buttons to add (+) or subtract (-) the amount.

Charge Name	Amount	+	-
Room Rent	\$0.00	+	-
Phone Calls	\$0.00	+	-
