

# MyPMS Release April 24, 2019

Version 3.8

This release brings enhancements to MyGuest, SMS Messaging support, Rate Plans and Reports as well as a few bug fixes.

## NEW MyGuest Android App

- **MyGuest - Mobile Concierge and Guest Request System-** Introducing MyGuest Mobile App for Android. Download from Google Play Store. MyGuest is completely integrated with the MyPMS booking process: Self Check-in, eSign and SMS Messaging. Get alerts when a guest checks-in, signs a document, or is SMS messaged for a 'same day booking/arrival'. Learn more about [Self Check-in](#) | [MyGuest Integration](#)

---

## MyPMS NEW FEATURES

- **Housekeeping Feature - Set the Say Over (S/O) Value:** Long Term Stay properties often will only perform a Stay Over (S/O) clean on every x night of the stay. The MyPMS system allows you to set this 'Cleaning Interval' so that the S/O value will apply, for example, to every 3rd night of the stay. Make your custom setting for the 'Cleaning Interval' in the [General Setting](#) area.
- **Default Rates - Meal Plan Included:** Each Rate Plan now includes the option to add a "Meal Plan" to create a Rate Plan Package with Meal Included. There are several Meal Plan Options to choose from. Learn more about [Default Rate Plan - Included Items for Reporting](#)
- **SMS Messaging - Check Mobile Phone Numbers:** We have added a feature to catch errors when sending an SMS Message from a booking. Now when you click 'Send SMS' the mobile number entered in Booking Information will automatically be checked for errors and display a pop-up message telling you to correct the phone number. Learn more about the [SMS Module](#)
- **SMS Messages - New Merge Field :** The SMS Letters function allows you to create and customize "Letters" or messages that you can send as an SMS message to Guests from a booking or using Auto Letters. We have added a new merge field, "Room Notes", which lets you insert notes specific to each room. Learn more about the [SMS Module](#) and the [Merge Fields - SMS Letters](#)
- **Transactions Report by User:** When the Transactions Report is sorted by "User", it now displays inactive Users at the end of the Report for easier viewing and printing. See [Transaction Report](#)
- **TripAdvisor Connection - Automatic Confirmation Email:** We have added an automatic confirmation to the TripAdvisor Direct Connection booking process. Properties will now automatically receive an email notification when a new TripAdvisor booking or a booking modification is received. Learn more about [TripAdvisor](#) | [InstantBooking](#)

## We are pleased to announce that the following software bugs were fixed in this release:

- Fixed missing graphic "success" in MyBooking.
- Fixed date format on the Dashboard widget "Availability Next 7 Days"
- Fixed issue with Manage Credit Card link opening to House Accounts in Group Bookings.
- Fixed issue with Dashboard Occupancy showing 0%. It now displays the correct daily availability.
- Fixed issue with formatting on Transaction Report landing page.
- Fixed issue with swiped credit cards. The "s" now appears on swiped cards in Add Payment.
- Added a PAX / EMV column to Batch report
