

Create a New Airbnb Listings

The 'Create a New Listing' will allow you to create a new listing within Airbnb:

- To do so, simply click the 'Create a New Listing' link and will take you to the following page

The screenshot shows a web browser window with the URL `http://airbnb.bookingcenter.com/client/create_listing.phtml`. The page is titled 'Airbnb Content Management Tools' and features a sidebar with navigation links: Home, Listing Management (with sub-links: Q Manage Listings, Manage Photos, Create Listing), Map Taxes, Pending Reviews (with sub-link: Review Stats), and Disconnect Host. The main content area is titled 'Add Property' and contains the following fields:

- Room Type:** A dropdown menu currently showing 'Cozy Suite One Bedroom D'. A note to the right states: "Don't see the roomtype you're looking for? Only types without an existing Airbnb id are available."
- Airbnb Listing Name:** A text input field with the placeholder text 'Name'.
- Listing Type:** A dropdown menu with a 'Select From List' header and the following options: Apartment, Bed & Breakfast, Boutique Hotel, Condo, Hostel, Hotel, House, Lodge, and Resort.
- Guests Get:** A text input field.
- Listing City:** A text input field.
- Listing Country:** A text input field.
- Listing Latitude:** A text input field containing the value '39.0462'.
- Listing Longitude:** A text input field containing the value '-76.9063'.

At the bottom of the form are two buttons: 'Add' (in blue) and 'Cancel'.

From here you will choose the existing room type within MyPMS and enter the additional fields that Airbnb requires. The most important would include the Airbnb Listing Name (Room Type Name) and the Listing Type.
