The screenshot displays the 'Attractions' management screen within a software application. At the top, there is a navigation bar with tabs for 'Front Desk', 'Bookings', 'Rates', 'Relationships', 'Owners', 'Parameters', 'Settings', 'PMS', and 'Features/Images'. Below this, a sub-navigation bar includes 'Activities', 'Attractions' (which is selected and marked with a checkmark), 'Amenities', 'Room Type Amenities', 'Images', 'Room Type Images', 'Package Images', and 'Inventory Images'. The main content area features a search and filter section with a 'Find records where' dropdown set to 'Description', a 'has' dropdown, a 'Sort by' dropdown set to 'Description', a 'down' arrow, a 'Display' field set to '200', and a 'Records' label. A 'Fetch' button is located to the right of the search section. Below the search section is a table with the following columns: 'Description', 'On Site', 'Distance', 'Distance Type', 'Notes', and 'Action'. The table contains 15 rows of attractions, each with an 'Add' button in the 'Action' column. The attractions listed are: Airport, Amusement park, Aquarium, Auditorium, Beach, Boat dock, Bridge, Bus station, Business location, Canal, Car rental location, Casino, Cemetery, Church, Concert hall, and Conference center. Each row has a 'No' dropdown for 'On Site', an empty text field for 'Distance', a 'Minutes' dropdown for 'Distance Type', and an empty text field for 'Notes'.
