

Letters

The Letters function gives you a way to print or email a predefined "Letter" to a Guest. The Letters that are available are created in **SETUP | PARAMETERS | LETTERS** and can be customized to include merge fields that will automatically fill-in Booking, Guest and Hotel information. The most common types of "Letters" used are the Confirmation, Registration and Receipt Letters. We have provided a basic template of these three Letters, but you may want to edit or customize them further. You can also create new Letters like promotional or special guest information letters.

To Create or Edit a Letter, go to **SETUP | PARAMETERS | LETTERS**. See [Add or Edit Letters](#)

To Email or Print a Letter for a Guest.

1. Open the Booking Details of the Guest and click on the Letters Tab.
2. Choose the Letter from the drop-down menu. (See [Add or Edit Letters](#))
3. Click Send Email or Generate Print Document
 - *Send Email:* A new email window will open with the Letter in the body of the email. The From:, To:, and CC: fields will be pre-populated by the email addresses you entered in **SETUP | SETTINGS | SITE DETAILS**. See [Site Details](#). These can be changed or deleted manually before you send the email. To test a letter, simply delete the guest name and enter your email address and confirm receipt. If the SMTP server we use for sending emails cannot send the email, it will notify you of such after clicking EMAIL.
 - *Generate Print Document:* A new browser window will open with a print button at the top. Click print.
