Manage Single Rate Plan

All changes to Rates and Restrictions are done in **SETUP | RATE | MANAGE RATES** after a default Rate Plan is created, **or** via the Rate Grid - Daily Rate Change.

Once a Rate is set up, it will appear in the drop-down list in Manage Rates, If you need to add a new Rate Plan or change the description of the Rate Plan, see Default Rates.

Rate Plans can be managed either individually (Manage Single Rate) or for multiple Rate Plans (Manage Multiple Rates).

Restrictions, Weekly Rates and Number of Guests are unique to each Rate Plan and must be adjusted individually using Manage Single Rates.

If you want to make a % or \$ increase/decrease or flat rate change to more than one rate at a time, then use Manage Multiple Rate Plans.

If you want to make a change to one rate, on one day, then use Rate Grid - Daily Rate Change.

Rates Tab	

Rates and Restrictions: Each Rate Plan is assigned it's own Rates and Restrictions and is managed individually unless selected for a multiple rate change. If you want to change multiple rates at the same time using % or \$ increase/decrease or flat rate change. See Manage Multiple Rates. Restrictions, Weekly Rates and No. of Guests are unique to each Rate Plan and must be adjusted individually. Therefore, when changing those items, you must make the changes to each of the Rate Plans you need to adjust.

Selecting Rate Plan and Date Range

- Choosing a Rate Plan: From the drop-down menu, choose the Rate Plan that you want to manage. You can choose one or multiple rate plans at the same time.
 - If you choose one Rate Plan, then the restrictions will change for only the rate plan selected.
 - if you want to change restrictions for another Rate Plan using the same date range selected, then just go to the "Select Rate" drop-down menu, select another rate and click "Display Rates". The screen will change to display the selected Rate Plan.
 - ° If you enter a Group Name in the Rate Plan, then the rates in that group will display together with a header.
- Choosing a Date Range: Choosing the correct date range is a very important part of managing rates. You can select any date range from one day, weekend, week or month to several years in the future.
 - Changing rates is done in a seven day calendar view starting on the day of week corresponding to the "Begin on" calendar date chosen. For example, if you choose Oct. 1 - Oct. 30 and Oct. 1 lands on a Saturday, then the first day of the week displayed is Saturday.
 - Although the date range selected is one month, the calendar will always display a seven day weekly view. This means that when you change a rate on the Friday night, it will change the rates for ALL Fridays from Oct. 1-Oct.30.
 - The rate changes you make will apply to ALL rates in the selected date range. If you are changing rates for a long date range like two years, then remember that it will over ride any short term changes made to specific time periods within the date range. For example, there are special rates entered for 4th of July weekend. The date range selected is through Dec. 2018. Any changes made through Dec. 2018 would override the the special rates and you will need to go the 4th of July weekend to reenter the rates.

Using "Save" and "Fill"

- "Save": Use this feature to save only the specific items you are changing. When this box is checked the data in that lined will be saved. Even if you don't change the rate and are only changing restrictions, the rate entered will save for the time period selected. Therefore, if you are only changing restrictions and not rates, then uncheck the boxes next to the Rates. If you are only changing rates and not restrictions, then uncheck the Restrictions.
- "Fill": This is a useful feature to make changes across the week. Clicking the 'Fill' box will automatically fill the entire row with the amount entered in the first entry. This can be a real time saver!

To Manage a Single Rate both with and without Weekly Rates enabled, follow these steps.
