Image Slideshow

Room Type Images display on your website in the "View Room Details" pop-out for each Room Type listed. Each Room Type can display up to 5 Images in the Slideshow. Each image has a **Description**, **Image Slideshow** and **Room Type Amenities** which can be customized in your Setup Area.

Image Sort Order -The sort order determines the order in which the Slideshow displays the images. The Room Type Thumbnail that displays on the "Select Room" page on the Booking Engine must be set at **"Sort Order=1"**. A **"Sort Order=1"** also defines image you want to see on your 'legacy' Booking Engine (used for the TripAdvisor 'Book Direct' feature) as the 'legacy' Booking Engine show only one image per Type, Item, and Package.

To enable the thumbnails to appear on your website go to [Booking Engine Settings](#) and choose "yes" for Display Thumbnail images. The first image in the Image Slideshow (Sort 1) will display as the Thumbnail image on all BookingEngine Templates and the Legacy Booking Engine (Request Server). Therefore, to see an image display on the BookingEngine, you must have at least one image set to Sort Order=1. Note: This also applies to Package and Inventory Item Images.

To Add or Edit Images, go to SETUP | FEATURES AND IMAGES | ROOM TYPE IMAGES See [Add Room Type Images](#)
