

Cancel Booking

Only a confirmed or unconfirmed booking can be cancelled. Once the booking is complete or is currently active, it can't be canceled. The action buttons active on each booking depend on the status of the booking. If the Cancel Booking button is not available, then the status of the booking does not offer that option and therefore not be cancelled.

For example, a confirmed or unconfirmed booking would have these Booking Action buttons available: Cancel Booking and Clone Booking. See [Booking Action Buttons](#)

There are three places in which you can cancel a booking:
