## **House Accounts**

Go to FRONT DESK | HOUSE ACCOUNTS to use, set up and print House Folio accounts.

House folios have the same functionality as the Guest folios, however they are NOT linked to a room number or Guest booking. House Accounts folios can be used to track transactions for anything from a extra items to a Gift Shop, Bar or Restaurant. You can add as many folios as you need, print or email them and then use the Search Folio function to find closed folios.

The Primary Folio serves as your main House Account Folio and will always display as the default when you go to the House Accounts. When you Add a Charge or Payment, it will automatically post to the Primary Folio unless have created another folio and chosen it when applying the transactions.

House Account folios can be open and closed at any time as long as they are balanced. To balance the folio, a corresponding charge and payment must be applied. There is a check during night audit to insure all house folios have zero balances. Manage transactions the same way as the standard Guest Folio. See Folio and Night Audit

Front Desk Tab

In House Accounts, you can perform the following functions:

- Add New Folio
- Edit Folio Setup
- Add New Charge
- Add Payment
- Transfer Checked Items
- Close Folio
- Search Folio
- Print Folio and Folio to Excel
- Print checked items to POS Printer
