

Setting up Letters

This establishes any form letters you may desire to generate from the system.

? Choose Parameters from the BookingCenter menu and Letters from the Booking System drop down list to display the Letter Details window.

The image shows a software window titled "Letters". At the top, there is a toolbar with icons and labels for "Find", "Print", "Next", "Last", "New", "Edit", and "Print". Below the toolbar, there are several input fields: "Letter ID", "Description", "Person ID", and "Notes". The "Notes" field is a small text box. Below these fields is a large, empty text area labeled "Text" on the left side, which is intended for the content of the letter. The window has a standard Windows-style border with a title bar and a scroll bar on the right side of the text area.

? Click on the New button or click the Edit button to modify the demonstration data.

? Enter the following information:

Letter ID Enter a unique ID to identify this letter.

Description Enter the description for this letter (i.e. Thank You Letter).

Person ID Enter the ID of the person whose name will appear by default at the bottom.

External Document Choose this if the 'letter' will be an external document used in a Merge Letter situation. See (See "Printing/Emailing Custom Letters Using Data Merge" on page ciii)

Choose Document Click to choose the actual file used as the External Document.

Notes Enter any notes on this letter.

Text Enter the text to appear on the letter itself.

? Click OK or press [Enter] to save the new letter.

? Repeat for each letter you wish to create.
