

Using the Group Booking Engine

The screenshot shows a login interface for 'ON THE DIVIDE'. At the top is a logo featuring a mountain and a rainbow. Below the logo, the text 'GROUP BOOKING LOGIN' is centered. A grey-bordered box contains the login form. Inside the box, the text 'Please enter your User ID and Password' is displayed. There are two input fields: 'USER ID' with the value '33502' and 'PASSWORD' with masked characters '*****'. A 'LOGIN' button is positioned below the password field.

What is the Group Booking Engine?

The Group Booking Engine is an online booking engine that offers a central location for individuals to book a room as part of a Group Reservation. See, <https://groups.bookingcenter.com/> . By logging in to a secured area, bookings can be viewed and added to a group without having to contact the property directly.

The booking engine provides Rooming Lists, individual payment options and group booking details to give guests the information they need to choose a room and complete payment. Guests can select the Room type they want from availability based on the hard allocation in the Group Booking in MyPMS.

All bookings made on the group booking engine are automatically updated and managed in MyPMS giving the Group Booking Manager complete control without the time commitment of taking individual bookings.

The group booking engine can also be customized to your property by adding a logo banner, displaying your marketing policies and room type images.

Note: The Group Booking Module is available to MyPMS customers who currently use the website BookingEngine.

Features and Benefits

- Group booking management in MyPMS
- Secure, online guest access with user id and password
- Availability and rates based on group booking allocation
- Customized logo, banner, and room type images
- Display deposit, confirmation, and cancellation policy
