

MyPMS Release - July 19, 2015

Enhancements

- **Tape Chart View:** Option to choose default days displayed on Tape Chart
 - **Occupancy Report:** Now provides an option to include or exclude out of order rooms (OOO) on the Report. See [Occupancy Report](#)
-

We are pleased to announce that the following software bugs were fixed in this release:

- Fixed Font inconsistent when adding write folio merge field
- Fixed issue with POS Letter in House Accounts.
- First Night Rate Merge field sending sql error to admin.
- Fixed issue with Booking report is querying on created date instead of occupied date
- Text Areas in setup area not saving in UTF-8 sample: German
