

MyBooking - User Guide

MyBooking (<https://mybooking.bookingcenter.com/>) is an online booking app that offers a personalized site for guests to manage their booking and personal information. By logging in to <https://mybooking.bookingcenter.com/>, a guest can:

- View, email, or print their Booking Details of upcoming bookings.
- Cancel an upcoming booking (and pay a cancellation fee, if needed).
- Print the current Folio or any signed document on file for the booking.
- Edit Guest Profile information.
- Add a new credit card to become the 'Guarantee by:' payment for the booking.

All changes made by the guest are automatically updated to MyPMS. When a guest cancels a booking in MyBooking, the booking will be charged the cancellation fee that was saved with hotel booking when it was made (if applicable), and update the status to Cancelled, freeing the room for re-sell. Likewise, any changes made to Guest information is automatically updated.

Below is a step-by-step User Guide for the MyBooking App.
