GDS Profile - Stay Restrictions

The stay restrictions section is important as it allows you to manage close outs over specific days and/or date ranges.

Stay Restrictions

- Located at: Setup > Availability > Stay Restrictions
- This section allows for the entry of stay restrictions at the property. This is often used to close out specific days or periods of time on the GDS/IDS.
- The steps to close out a specific date are as follows:
 - i. To do this, you would click the 'Add Stay Restriction' button in the top right hard corner.

Manage > Availability > Stay Restrictions Stay Restrictions Set your Stay Restrictions by channel.									Save	Preferences	Related T
