Airports

Fields designated with "*" are required. Fields designated with "+" are displayed in one or more GDS and/or Pegasus HCD and/or Channel Connect. Maximum field lengths are noted in parenthesis next to text fields.

Airports

	Code * +	Description * +	Transportation	
<div>Edit</div>	SJC	San Jose International Airport	View/Edit	<div>Delete</div>
<div>Edit</div>	SFO	San Francisco International Airport	View/Edit	<div>Delete</div>
<div>Edit</div>	OAK	Oakland International Airport	View/Edit	<div>Delete</div>
<div>Edit</div>	SMF	Sacramento International Airport	View/Edit	<div>Delete</div>

- Located at: Setup > Data Management > Airports
- This section allows for enter specific information regarding the major/key airports in your area.
- We recommend you include at least four and ideally have these be international airports (if applicable) and only include those that are 65 miles/100 kilometres from the property.
- Please click the 'Add New' button in the top left corner. From here, you can add your various airports.
