Using an 'Calendar of Availability' as the default 'in template offers a visual calendar option of property have rooms and which do not) and enables Guest

NOTE: Some customers to choose to avoid this 'Front Page' entirely, and use the **Quick Reservation Feature** on their website to present a clear 'call to action' accepting '*Arrival Date*" and '*Departure Date*' so that, when submitted, the user gets availability results from the Booking Engine for those dates. This approach has been shown to generate more bookings - look at major hotel websites and this is how they implement the Booking Engine. We describe how you can do this in this **Knowledge Base Article.**
